

We are sorry that during this first step of opening the new VajraShop, it is currently not possible for us to offer product orders to countries outside the EU through the regular web shop ordering process.

We can still send goods to non-EU-countries, however, only at this point in time through a different ordering process.

For your order, we can offer the following ordering process:

- You create a **user account** on www.vajrashop.com. To do so you just need to enter your first and last name and your email address and set a password.
- You log into your account at www.vajrashop.com
- You add all the products that you would like to order to your shopping cart without starting the actual ordering process. You leave the products in your shopping cart.
- You place your order for the products that you have put into your **shopping cart** by **filling in the form which you find under the following link: <https://forms.gle/8vgZukxhudbn3CSd8>**
- We then send the products that are in your user account's shopping cart (which we can view in the backend of the website) to the specified delivery address and send you the corresponding **invoice by email**.
- Product orders **qualify for free shipping or for various discount percentages** depending on the ordered amount and on the destination country. Please find the shipping and discount information for your country below.

Please note that the total order amount is calculated as a total of the sales prices **excluding VAT** since sales to non-EU-countries are free of VAT.

If you have any questions, please do not hesitate to contact us.

We kindly ask for your understanding that placing orders to non-EU-countries are currently only possible in this way. We are working on being able to offer regular web shop orders in the future.
